MIT Academy of Engineering (An Autonomous Institute)	CA Activity No-1(20 Marks)	
	ACADEMIC YEAR	2025-26
Alandi (D), Pune – 412105	SEM / TRI	II
DEPARTMENT OF E&TC ENGG.	CLASS & DIVISION / BLOCK	FY B.Tech-ALL

ACTIVITY NAME	NASSCOMM CERTIFICATION		
COURSE	CREATIVE TECHNOLOGIES (2301183)	Lab Activity N0.	02 (One)
COURSE INSTRUCTORS	VINAYAK KULKARNI & TEAM	DATE	25-01-2026

STUDENT NAME		PRN	
TRACK		TRACK TEACHER	

Que. No.	Question Description/ Design Problem Statement	Marks	CO No.	BT Level
Q1	Please read assignment statement below , the students Online Industrial Certification Course Digital 101-30 Hours (GOI, AICTE, NASSCOMM, NSDC)submit the Reflection report in prescribed formaty (pdf) on Moodle	20	CO3	L2, L3

(Remark: Course Instructor to add assessment rubrics for each assignment) RUBRICS:

Criteria	CO Addressed	Completion of Course (20 Marks)	Incompletion of Course(0 Marks)
Activity Completion & Reliction Report	CO3	Completion of all modules of course Digital 101-30 Hours, produced course completion report (15 Marks)	• Student not registered to course • Not completed the course • Not completed all course activities
		Produced Report and evaluated by Track Teacher (05 Marks)	Simply Not completed the course , without showing the appropriate work, which is to be graded, will also be awarded a score of "0."

ASSESSMENT:

Date	Marks (20)	Sign of Track Teacher	Name of Track

INSTITUTE LEVEL SUBMISSION LINK:

(Only Certificates)

https://docs.google.com/forms/d/e/1FAIpQLSeFatr8OUi5FJGrX5R_1-17POp0d3zLPbSMrQx0wcUDpiwTTA/viewform?usp=publish-editor

(** Every student will upload certificates in pdf with above mentioned Link)

Instructions:

1. Complete this word file Activity report Template
2. Take Hardcopy of this report, get sign & Grade (10) from Track Teacher
3. Submission on Moodle. (Pdf Format).
4. All FY students appearing for course Creative Technologies must do thissubmission individually.
5. Submit certificates only to institute level link
6. Submit this report to track teacher for grading

CA ACTIVITY STATEMENT

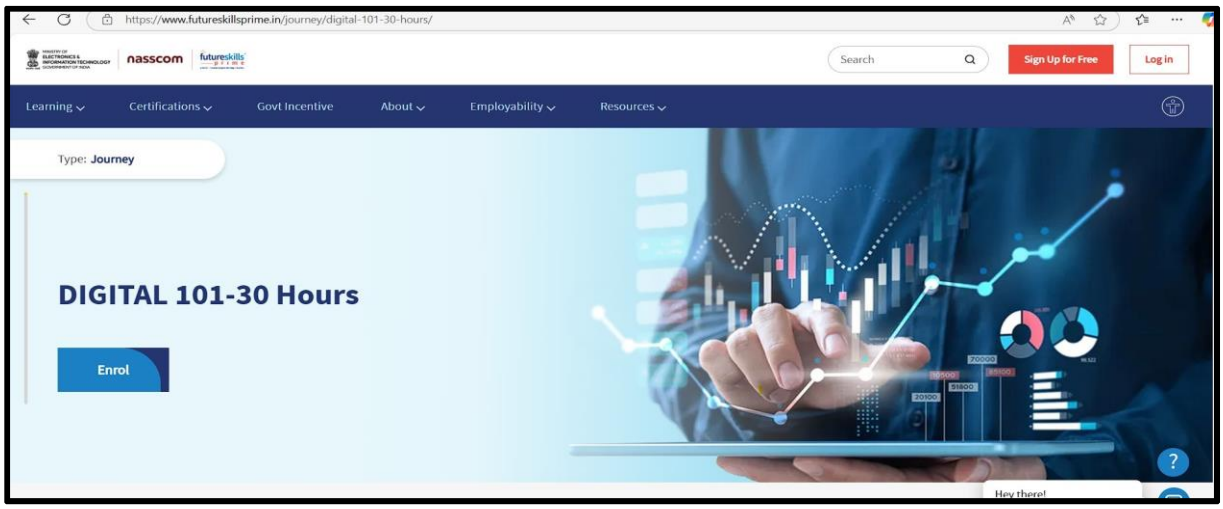
(Course Outcome (CO3)- Illustrate the use cases of emerging technologies. [L2].)

INTRODUCTION:

Name of Activity	Online Industrial Certification Course Digital 101-30 Hours (GOI, AICTE, NASSCOMM, NSDC)

Activity Details	Value Added Course Certifications on Future Skills or Future Technologies [Compulsory for every student] a) An Industrial Value-added course certification from Industries Agencies ofrepute will award 20 Marks b) For year 2025-26, A course Digital 101(30 Hours-Self Paced) hosted byFutureskillsprime Supported by Govt. of India, AICTE, NASSCOMM, SKILL India, NSDC etc. COs: CO3- Illustrate the use cases of emerging technologies. [L2] POs: PO-1, PO-06, PO-11 PSOs: PSO1 to PSO4

REGISTRATION PROCESS:

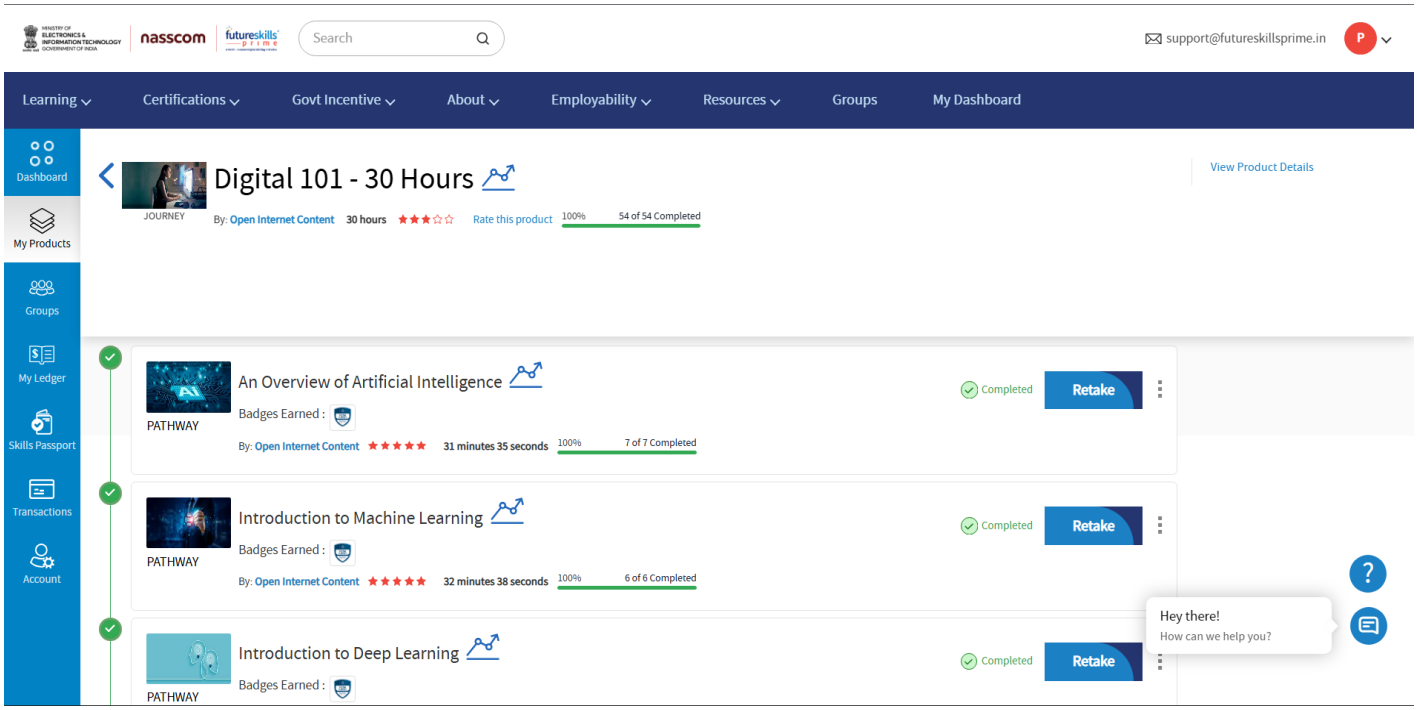


LINK: https://www.futureskillsprime.in/journey/digital-101-30-hours/

- Click on Enrol, You have to join with google
- Use Personal Email ID to which APAAR ID and Digi-locker is attached (Important !!!)
- Refer a separate document attached NASSCOMM Certification Process.pdf

Submission Report
(Module Completion Report) (100% Completion of all prescribed modules)

(Attach 02 snapshots showing 100 % completion here-02 pages)
(Go to dashboard open course see list of modules completed, divide in 02 snapshots, attach here)



Submission Report
(Certificate for Course -Digital 101-30 Hours)

Certification Procedure: [Certification based on Quiz)

- Complete all modules with 100% completion, Verify from Dashboard
- Go to site home page , Search Module “Digital 101-30 hours Assessment”
- You will Get 02 results-
    a) Digital 101 Assessment- Mock(free)
    b) Digital 101 Assessment- final (paid)
- Digital 101 Assessment- Mock(free)- this is practice test before you go for final assessment, this will not produce certificate
- Digital 101 Assessment- final (paid)- This final certification Quiz , You need to pay for certification like other certification exam NPTEL, CISCO
- After Completion You will get Graded certificate with Marksheet in Gold, Silver & Bronze categories in your dashboard

---

(Attach Certificate front side- page 02 snapshot here)

List of Modules Completed
(Type List of all Modules completed)

- An Overview of Artificial Intelligence
- Introduction to Machine Learning
- Introduction to Deep Learning
- ChatGPT
- GPT-4
- ChatGPT in Marketing
- OpenAI Tools: AI Text Classifier
- OpenAI Tools: Point-E
- OpenAI Tools: Text-to-Image Generator DALL-E
- Applications of Artificial Intelligence
- Intelligent Wearables and Bionics
- AI in Electric Vehicles (EVs)
- AI and Metaverse
- Impact of Artificial Intelligence on Workforce and Workplace
- Future of Artificial Intelligence in Various Industries
- Edge AI/TinyML
- Quantum Computing
- Evolution of Big Data Analytics Overview of Big Data Analytics
- Applications of Big Data Analytics
- Database Management for Data Science
- Getting Started with Internet of Things
- Applications of IoT
- Industrial Internet of Things or IIoT
- Digital Payments
- An Overview of Cloud Computing
- Applications of Cloud Computing
- Service Models in Cloud Computing
- Popular Software Tools and Techniques Used in Cloud Computing
- An Overview of Cybersecurity
- Applications of Cybersecurity
- Types of Cyber Attack
- Data Privacy and User Data Control
- Deepfake
- Evolution of blockchain
- Getting started with blockchain
- Application of blockchain in finance industry
- Impact of Blockchain on Workforce and Workplace
- Getting Started with Robotic Process Automation
- 3 Core Technologies of Robotic Process Automation
- Applications of Robotic Process Automation in Banking and Insurance Industry
- Getting Started with Web, Mobile Development and Marketing
- 5Ds of digital marketing
- Digital storytelling

- Getting Started with 3D Printing & Modeling
- Digital marketing
- Future of 3D Printing & Modeling in Various Industries
- Getting Started with Augmented Reality and Virtual Reality
- Pre-requisites for Augmented Reality & Virtual Reality
- Metaverse
- Applications of Augmented Reality & Virtual Reality in Banking & Insurance
- VR best practices and challenges
- AI ethics Ethical consideration of generative AI

Reflection Report on Online AI courses

(Write one page report on course wise learning and your Understanding through these courses in your own language)

I have successfully completed the "Digital 101 – 30 Hours" course on NASSCOM FutureSkills Prime, which provided me with a comprehensive introduction to emerging digital technologies. This course offered valuable insights into Artificial Intelligence, Machine Learning, Deep Learning, and several other advanced concepts that are shaping the future of technology.

In the initial modules, I explored the fundamentals of Artificial Intelligence and Machine Learning, gaining an understanding of how systems can learn from data and make informed decisions. The introduction to Deep Learning further strengthened my knowledge of neural networks and their applications in areas such as image recognition and speech processing. I also learned about tools like ChatGPT and GPT-4, which demonstrated how AI can generate human-like text and assist in tasks like content creation, coding, and marketing.

The course also familiarized me with various OpenAI tools such as AI Text Classifier, Point-E, and DALL·E, helping me understand how AI can generate both textual and visual content. Additionally, learning about the applications of AI in domains like electric vehicles, intelligent wearables, the metaverse, and workforce automation highlighted the wide-ranging impact of these technologies across industries.

I gained foundational knowledge in key areas such as Big Data Analytics, Cloud Computing, and Database Management, which are crucial for managing and processing large-scale data. Topics like the Internet of Things (IoT), Industrial IoT, and Edge AI gave me insights into how interconnected devices operate and process information in real time.

The modules on Cybersecurity and Data Privacy increased my awareness of potential online threats, different types of cyber attacks, and the importance of safeguarding sensitive information. I also learned about Blockchain technology, its evolution, and its applications in secure financial transactions.

Furthermore, the course covered Robotic Process Automation (RPA), Digital Marketing, 3D Printing, and Augmented & Virtual Reality, which broadened my understanding of current technological trends. Concepts like Digital Payments and various Cloud service models also enhanced my understanding of today's digital economy.

Lastly, the course emphasized AI ethics and the impact of automation on employment, helping me appreciate the importance of responsible and ethical use of technology. Overall, this experience has

significantly enhanced my knowledge, deepened my interest in emerging technologies, and motivated me to further explore the fields of AI and data science. I believe this learning will be highly beneficial for my future career.
